

To Aron and the whole crew,

We wanted to tell all of you how great it was working with you. Aron, you have a great crew of guys who were always respectful and hardworking. All of you had great ideas and all of your suggestions worked out to be the best plan.

We are still reminding ourselves that we are in our own yard and not on a vacation at a Resort somewhere. (Although its looks pretty POSH). From the Chilton steps and the "Shrek" wall all the way to the Awesome Waterfall and seating wall the whole project has turned out so beautifully we could never have pictured it when we started in spring.

Everyone who comes here cannot believe what has all been accomplished with the backyard that used to be. You have created a "Piece of Paradise" for us that we will enjoy everyday!

If any one of the crew has not seen the finished project please feel free to stop anytime. If you want to "show off" your handy work to family that would be fine.

Come over and swim (I'm not going to keep asking!!!) we will be happy to have you.

Thanks again for everyone's hard work on the marathon project; we recommend Extra Mile to all who ask and others that we know; you did a fantastic job!

Sincerely,

Your new friends on the block,  
Joe and Diane Carlson

A handwritten signature in cursive script, appearing to read "Joe & Diane", written in dark ink.
